

**A**t The Ellison School children are our reason for being. Every child is unique and special—which makes caring for them both an honor and privilege.

At Ellison, we pride ourselves in making preschool fun in a way that inspires a life-long love of learning. The emphasis is on curriculum-based academics in a creative, nurturing, hands-on environment—enabling children to develop the important social and academic skills needed as they prepare for Kindergarten and beyond.

Please Join Us

We hope you'll consider The Ellison School for your child. We invite you to visit and experience our Preschool in action.

For more information or to make an appointment, please call us at 856-691-1734, or visit our web site at [www.ellisonschool.org](http://www.ellisonschool.org).

## Our Experience is Unparalleled

Since 1959, The Ellison School has helped shape the lives of countless children. The staff of teachers and teachers' aides is highly qualified and fully dedicated to finding the most creative ways possible to open both the minds and hearts of the young children we serve. With small class sizes, students receive the individualized attention they need to succeed. Teachers prepare progress reports, offer formal parent conferences and are always available to listen and answer questions.

In addition to Ellison's advanced developmental curriculum, The Ellison School Preschool features access to two fully equipped outdoor playgrounds, foreign language classes, art and music appreciation, physical education, the library, and state-of-the-art computer laboratory.

## Unique Programming

*The Ellison School has two core preschool programs, serving the early educational needs of children ages three and four.*

### Pre-K 3

Our three-year-old students are raring to go and so are we!

The Pre-K3 program takes an interactive approach to teaching letters, numbers, shapes and colors. The curriculum also introduces early science and math concepts, and offers activities designed to strengthen fine and gross motor skills, self-expression and self-confidence. The children learn about weather, animals, community helpers, transportation, holidays and nature. Finally, Ellison's Pre-K3 program reinforces healthy habits, good manners, and many other social skills.

### Pre-K 4

Believe it or not, Kindergarten is coming—and we make sure all Pre-K4 students are ready! Students review and build upon their knowledge of letters, numbers, shapes and colors, as well as explore the early science and math concepts they'll need as they enter Kindergarten.

School days are filled with fun, non-stop activity designed to capture the unique spirit, enthusiasm and endless wonder of these very special youngsters. Through planned activities, children are encouraged to explore, create, communicate, question, solve problems, think, reason, and socialize. Children also learn to create unique stories through daily journals filled with their precious hand-drawn pictures, explained in their own words.

*Ellison offers families flexible options which include three- and five-day programs comprised of half- or full-day sessions.*

*Early morning and after-school care is also available.*
